

If it's outside,
WE'VE GOT IT COVERED.

Protecting homes for over **60 YEARS**

If it's outside, WE'VE GOT IT COVERED.

As a dedicated exterior specialist, Sandtex® has been protecting homes and buildings for decades. Our product portfolio benefits from extensive research and development with formulations that include our most durable weather-resistant technology, giving you the confidence that your home will be protected for years to come.

Protecting homes for over **60 YEARS**

**Rain
resistant?**
Yes.

**Sun
resistant?**
Yep.

**Dirt
resistant?**
You betcha.

**More rain
resistant?**
Well yeah,
this is the UK.

MICROSEAL® TECHNOLOGY

BREATHABLE
RESISTS PEELING
AND FLAKING
DIRT RESISTANT

WATER VAPOUR

WATER PROTECTION

Brick Render Paint

Sandtex® Microseal® formulation is **microporous** and provides **sealing** attributes that protect the coating against water ingress.

This means that the coating allows the surface to **breathe** and moisture to evaporate whilst at the same time protecting the coated surface from water penetration.

In addition, a slow release agent **protects** the coating over an extended period against mould and algae growth.

Its dirt resistant properties also help to maintain the coating's aesthetic features, and with the benefit of being **rainproof in just 1 hour*** you can complete the job even if the weather forecast is not reliable.

All these benefits of **Sandtex® Microseal® Masonry Paint** ensure that your house looks better for longer.

*when applied in accordance with manufacturer's instructions

15 YEARS TRUSTED DURABILITY
